## Free Ticket to Staying Open

Alpine County is one of only 3 counties in the least restrictive Tier in the state's Blueprint for a Safer Economy – see <https://covid19.ca.gov>

How do we get to stay there? By doing everything we can to keep our case rates and test positivity low. Although it may not seem intuitive, that means lots of people without symptoms need to get tested, in addition to any with symptoms. Since COVID-19 infections can be spread by people without symptoms, it is important for us all to get tested so that we identify any previously unrecognized cases in our community before they have a chance to spread the infection. So, in addition to:

- Wearing a face covering
- Maintaining at least 6 feet of social distancing
- Minimizing participation in gatherings
- Frequent handwashing

**GET TESTED – FREE\***
